

## Airless Road Car Park Line Painting Equipment Single Gun 6L Max

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: WAGE
- Certification: EMS OHSMS
- Model Number: HG-6L
- Minimum Order Quantity: 1 set
- Price: 2700-2900usd per set
- Packaging Details: Box
- Delivery Time: 1-3 weeks
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10 set per week

### Product Specification

- Highlight: Airless car park line painting equipment,  
Single Gun 6L car park line painting equipment,  
Single Gun 6L road line painting equipment

## Product Description

Airless cold paint Spraying Road Line Striping Marking Machine Single Gun 6L Max

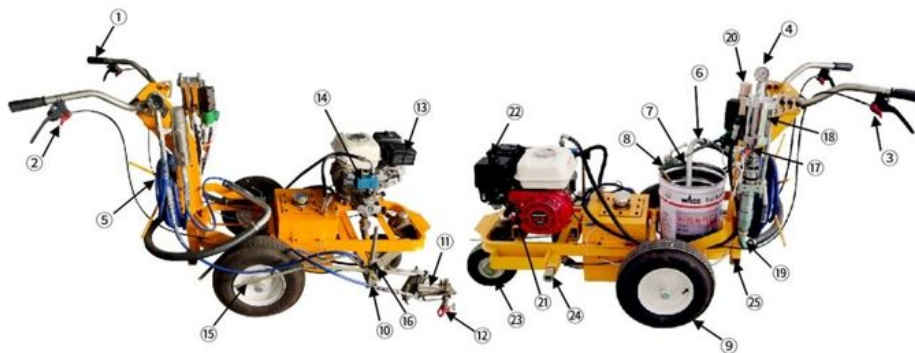

### Airless spraying road line striping marking machine single gun

#### Working Principle

Using gasoline engine to drive hydraulic plunger pump to form high pressure paint in the pump. The pressurized paint is transported to the airless gun through high pressure hose. Finally, the hydraulic pressure is released at the airless nozzle. After instantaneous atomization, the paint is sprayed to the ground to form a marking film layer. Normal temperature marking machine is usually suitable for the construction of underground parking spaces, plot plant area marking, a small number of pavement roads and other kinds of temperature marking.

#### WAGE HG-6L

- |                     |                       |                               |                                   |
|---------------------|-----------------------|-------------------------------|-----------------------------------|
| 1. Handle           | 8. Backflow valve     | 14. Pressure regulating valve | 20. Solenoid valve                |
| 2. Spray gun switch | 9. Tubeless tire      | 15. Striping Pointer          | 21. Gasoline engine pull starter  |
| 3. steering switch  | 10. Spray gun bracket | 16. Cross regulator           | 22. Throttle, Damper, Oil circuit |
| 4. Pressure gauge   | 11. Spray gun         | 17. Micro switch              | 23. Positioning wheel             |
| 5. Paint pipes      | 12. Nozzle            | 18. Hydraulic plunger pump    | 24. Front spraying gun holder     |
| 6. Sucker           | 13. Overflow valve    | 19. Elbow, Marble             | 25. Back spraying gun holder      |
| 7. Paint bucket     |                       |                               |                                   |

1. Honda engine is used to ensure strong horsepower.
2. The front wheel positioning system and the vacuum pneumatic tire used in the rear wheel have good shock absorption effect, which can greatly reduce the line deformation caused by road surface fluctuation, and ensure that the marking edges and angles are neat.
3. The spray gun bracket can be adjusted in all directions to ensure the accuracy and convenience of line width.

**5.5 HP gasoline engine**

**Spraying Gun**

**Parameter:**

	HG-6L	HG-12L
power	5.5HP gasoline	6.5HP gasoline
Core pump	WAGE hydraulic piston pump	Precision Hydraulic Piston Pump
Marking mode	High pressure airless spraying	High pressure airless spraying
Working pressure	8-14Mpa	21Mpa MAX
Flow max	6L/min	12L/min
Spraying width	100-300mm(single gun)	50-500mm(DOUBLE GUNS)
Spraying thickness	0.2-0.4mm	0.2-0.4mm
Size (L*W*H)	1750*680*950mm	1700*750*1100mm
Weight	128kg	110kg

**Working:**

**Application:**

WAGE company has strong ability of research, manufacturing and innovation, which is the backbone of the enterprise Chinese road marking machine industry. The company products are mainly divided into two parts of road marking equipment and road marking material. Road marking equipment including hand push thermoplastic road marking machine, cold spray road marking machine, double component road marking machine, auxiliary machine and other series. Meanwhile agents of the United States well-known brands: Graco road marking machine. In order to develop new products, improve equipment performance, our company made a full research and experiment on the new road marking materials, currently has a number of projects put into use and received more recognition. The company's products covered all areas of road marking construction, with a strong set of equipment supply and service capabilities.
